

Associazione Italiana di  
Chimica Tessile e Coloristica

Milan, December 27th 2022

To IFATCC

Subject: New technical book

To whom it may concerns.

Dear associates, as you may know, we as Association are supporting textile knowledge through the publication of technical book addressed to students, technicians as also people interested in textiles.

Our new initiative is already in place, and it consist in a new book dedicated to the dyeing of yarn in bobbins. This new book is already available and is translated in Italian, English as also Spanish: the author is a well know technician who has accepted the proposal to disseminate knowledge about his long experience in dyeing.

We are convinced that a new technical book can support associates worldwide to improve their skills.

We are now offering to all association federated in IFATCC the opportunity to take an advantage promoting this book at a special reserved price.

If interested in this offer, please contact [segreteria@aictc.org](mailto:segreteria@aictc.org)

Don't forget our latest issue in English:

- A history of the international dyestuff industry
- That business about steam ager

Don't hesitate to contact us.

Warm regards
